

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

SCIENTIFIC BOOKS

METEORITES

Their Structure, Composition and Terrestrial Relations.
By Oliver Cummings Farrington, Ph.D., Curator of Geology,
Field Museum of Natural History, Chicago.

This work gives a complete and accurate account of the present knowledge of Meteorites and embodies the results of the latest researches on the subject. "This volume will at once interest the intelligent amateur and be of value also to the trained specialist." American Journal of Science.

Pp. x+233; 65 illustrations. Price \$2. Postage extra, 2 lb. rate.
For sale by **COLONIAL PRESS, 1510 East 56th Street, Chicago, Illinois.**

A BRIEF ACCOUNT OF RADIO-ACTIVITY

By FRANCIS P. VENABLE, Ph.D., D.Sc., LL.D., Professor of Chemistry, University of North Carolina.

The object of this treatise is to give a simple account of the development of our knowledge of radio-activity and its bearing on chemical and physical science.

Pp. vi+52

D. C. HEATH & COMPANY

Boston New York Chicago

THE MEANING OF EVOLUTION

By SAMUEL C. SCHMUCKER, Professor of the Biological Sciences in the West Chester State Normal School.

An attempt to give to people whose training is other than scientific some conception of the great story of creation. Pp. viii+298.

The Macmillan Company, New York

A NEW ERA IN CHEMISTRY

By HARRY C. JONES, Professor of Physical Chemistry in the Johns Hopkins University.

Some of the more important developments in general chemistry during the last quarter of a century. Pp. xii+326. \$2.00.

New York, D. Van Nostrand Company

DISCOVERY, OR THE SPIRIT OF SERVICE IN SCIENCE

By R. A. GREGORY

The main purposes of this book are to promote a more sympathetic attitude towards those who are engaged in the pursuit of scientific truth and to remove the wide-spread conception which prevails as to the meaning and influence of science.

1917 R-S

The World's Master Motorcycle

Up—up to still higher levels the Reading Standard now advances—time tested by many thousand exultant owners.

Fine has been *re-fined*—by an added year's development. And the 1917 Models are again without comparison.

A *transcendent* Reading Standard—unchanged in essentials and enriched in details. To better the best Reading Standard has been our aim—and the inspiration of the day's work.

In beauty, quality and luxury the 1917 R-S attains what seems to be the limit. Styles may change in a minor way, but we see no possible way of ever building a finer motorcycle.

Three Models for 1917

Model 17 T, 12 H. P. Twin Cylinder.....\$275.00

Model 17 TE, 12 H. P. Twin Cylinder, equipped
with Bosch Electric Lighting System..... 315.00

Model 17 S, 6 H. P. Single Cylinder..... 240.00

Let your distributor demonstrate the many features found on the R-S Machines only. Good territory still open.

A Handbook of New England

Descriptive of Town and Country along the Routes of Automobile Travel, with Introductory Chapters.

768 pages, round corners, crimson silk cloth, gold stamped, \$2.50

PORTER E. SARGENT
50 Congress St., Boston, Mass.

Perfected in Every Feature

You are sure of careful working out of the essentials of projection lantern in the

Bausch and Lomb Balopticon

The Perfect Stereopticon

Sharp definition to the extreme corners—simple construction—wide adaptability of use—moderate price—these characterize all models of the Balopticon.

The illuminating unit of several models—our new gas-filled Mazda lamp, whose illumination, at less cost for current, is superior to that of the old-style arc—is absolutely automatic and noiseless.

The Home Balopticon (illustrated) projects opaque objects (photos, drawings, post cards, etc.) in small classrooms. Price \$35.00. In combined form, to use lantern slides as well, \$45.00. Other models for slides only, \$25.00 up.

Our free illustrated catalog describes all models, with prices.

The Scientific Monthly

*Entered as second-class matter October 1, 1915, at the post office at Lancaster, Pennsylvania,
under the Act of March 3, 1879*

THE SCIENTIFIC MONTHLY is conducted on the editorial lines followed by THE POPULAR SCIENCE MONTHLY since 1900. It publishes as THE POPULAR SCIENCE MONTHLY published, articles appealing especially to educated readers as opposed to purely popular matter intended for the public generally, and for such a journal THE SCIENTIFIC MONTHLY appears to be the more fitting name. The editorial management, publication department and typographical form are the same as have characterized THE POPULAR SCIENCE MONTHLY during the past fifteen years, and have made it an important agency for the advancement and diffusion of science.

CONTENTS OF THE MAY NUMBER

- The Fur-seals of the Pribilof Islands Professor G. H. Parker.
The Economic Saving of Human Resources C. L. Close.
Education, Efficiency and Economy, with special reference to Mining. Lancaster D. Burling.
Science and Modern Civilization. Professor Maynard M. Metcalf.
The New Science of Plant Sociology. Dr. Roland M. Harper.
Memories of the Smithsonian. Dr. Marcus Benjamin.
The Progress of Science:
Book of the Opening of the Rice Institute; Imported and Native Woods used for Dye Materials; Fighting Australian Aphids with Maine Flies; Scientific Items.

CONTENTS OF THE JUNE NUMBER

- A Pilgrimage to the Home of Confucius. Walter K. Fisher.
Demonology and Bacteriology in Medicine. Dr. Jonathan Wright.
The Real in Science. Professor James Byrnie Shaw.
"Members of One Another." Professor B. W. Kunkel.
The Russian Village and the War. Robert E. Blake.
Flora of the Vicinity of New York. Norman Taylor.
Two Historic World-pestilences robbed of their Terrors by Modern Sanitation. D. Greenberg.
The Progress of Science:
Work of the National Research Council; Inland Fish and Game as Food Supply; Welfare Work in British Munition Factories; Scientific Items.
